

**ActiveH is the new complete Microsoft SQL Server based housing system from MIS that is raising eyebrows.**

For a broad spectrum of housing providers managing from under 200 to over 40,000 homes, this is the system and supplier of choice.

- Fully integrated thinking
- 360° CRM view of customers and neighbourhood
- Efficient yet personal
- Tenant web portal
- Full case management for ASB, Adaptations, RTB etc
- Comprehensive reporting suite
- A true partner, not just a supplier, ask any of our customers

Look at some of the people who are transforming service with us:
